

Features

1. Suitable for solder dipping of large terminals, wires, connectors and big lead wires.
2. Pot made of import pure titanium, high temperature resistant and anticorrosion.
3. Built-in micro-computer chip, control the temperature accurately.
4. Automatic sleeping function to protect and prolong heater and pot life.
5. Come with malfunction alarm function.
6. Temperature could be protected by password to avoid unauthorized operation.
7. Touch button control, easy to operate.

Technical Data

Specification

Model	Power	Temp.	Capacity	Pot size
BK220	900W	0~600°C	4.5kg	140*100*45
BK221	1000W	0~600°C	5.7kg	160*110*45
BK222	1200W	0~600°C	8.2kg	180*140*45
BK223	1500W	0~600°C	9.8kg	200*150*45
BK224	1800W	0~600°C	13.1kg	250*160*45
BK225	2000W	0~600°C	18.3kg	280*200*45
